Re: Resaca Battlefield Historic Site Construction Project

Dear Mr. King,

This letter shall serve as the official letter of completion for the Resaca Battlefield Historic Site project as requested. In accordance with the December 23, 2009 Intergovernmental Agreement and the March 17, 2010 letter from Commission Chairman Alvin Long, the Georgia Department of Natural Resources Engineering & Construction Section has satisfactorily completed all work for the historic site amenities shown in the Pond and Company March 7, 2012 detail drawings and specifications except where field conditions mandated a modification. We hereby return the site to you for your occupation and operation.

We appreciate your interest and cooperation in managing and interpreting this site and look forward to a satisfactory relationship for many years while allowing the public to access and enjoy this historic site.

Sincerely,

James T. Evans
